SUMMARY

Pursuing a Bachelor of Computer Science (Hons.) in Computer Networks part-time, with a completed Diploma in Computer Science. Currently working as a Business Operations Consultant at Maxis, where I support CRM system management, streamline data processes, and collaborate with teams across Malaysia to enhance operational efficiency. Skilled in project, time, and event management, with a strong foundation in IT and networking. Passionate about cybersecurity and working toward a future in ethical hacking, penetration testing, or cybersecurity operations. Eager to grow, learn, and bring a security-first mindset to the tech industry.

KEY COMPETENCIES

- Programming Languages: Proficient in Python and C, working knowledge of Bash for scripting.
- Operating Systems: Experience with Linux environments (Ubuntu, Kali), proficient in shell scripting.
- Web and database: MySQL, HTML, CSS, JavaScript, PHP, and WordPress.
- System/Network security: Practical skills with tools such as Nmap, Nessus, Wireshark and Cisco Packet Tracer for network scanning and vulnerability assessment.
- Tools & Frameworks: Familiar with Git for version control, Experience with VirtualBox for lab environments.

WORK EXPERIENCE

Maxis Broadband Sdn. Bhd, Bandar Sunway   **September 2024 - Present**
Centralized Data Processing Unit

- Coordinated the flow of critical data, including customer details, purchase orders, and invoices, ensuring accuracy and efficiency.
- Key in data into system with minimum human error.
- Collaborated with cross-functional teams to provide timely data support, improving departmental communication and workflow.

JCI Malaysia, Setiawangsa   **March 2024 - August 2024**
Intern

- Tasks related to design and multimedia. The tasks involved creating various visual and video content to support company marketing and promotional efforts

Thunder Match Technology, Mid Valley Megamall   **August 2022 - September 2022**
Sales Assistant

- Assisted customers in selecting and purchasing products, based on their individual needs and preferences.
- Provided technological advice on the features and specifications of various products, ensuring customers made informed decisions.
- Maintained up-to-date knowledge of the latest technology trends to provide informed recommendations to customers.

EDUCATION

Bachelor of Computer Sciences (Hons.) Computer Networks
Universiti Teknologi Mara Shah Alam
In progress - Part Time Degree (Intake March 2025)
- Relevant coursework: Network Security & Digital Forensics.

Diploma in Computer Science
Universiti Teknologi Mara Kuala Terengganu
Graduation: 2024
- Relevant coursework: Object-Oriented Programming, Database Systems, Web Development, Network Security.

Sijil Pelajaran Malaysia
Sekolah Menengah Kebangsaan Puchong Permai
Graduation: 2019
- Achieved 4As, 4Bs.

PROJECTS

E-Commerce Website Development

- Designed and developed a fully functional e-commerce website using HTML, CSS, JavaScript, and PHP.
- Integrated MySQL for database management, ensuring secure and efficient data storage.
- Implemented user authentication, enhancing the overall user experience.

Network Vulnerability Assessment

- Conducted a comprehensive network vulnerability assessment using Nessus and Nmap.
- Identified and documented security vulnerabilities, providing actionable recommendations to improve network security.

Phishing Simulation Test

- Conducted a phishing simulation test using VMware to virtualize Kali Linux and the Zphisher tool.
- Designed and deployed phishing emails to test the security awareness of users within a controlled environment.
- Analyzed the results to identify vulnerabilities in user behavior and provided recommendations for improving security awareness training.
- Gained hands-on experience in ethical hacking techniques and cybersecurity best practices.

CERTIFICATIONS

- CISCO certification: Introduction to Cybersecurity
- CCNA: Introduction to Networks
- Malaysian University English Test (MUET) - Achieved MUET Band 4.
